technology*

Welcome and thank you for showing your interest and faith in this journey of ours and help us making Supremo, a trusted and reputed brand.

Our Company purpose, to offer innovative products and client centric services backed up by strong infrastructure and dedicated team has led us making 'Supremo' as an emerging brand. This purpose has been evident since the establishment of our corporation when we set out to build a premium brand with an eye on innovation.

The values we share are embodied in what goes on at Supremo from day to day. Team members must exhibit ethical and honest behavior, and Supremo must offer fair, equal conduct in a safe, healthy workplace. We believe that in such an environment, sound decision making and effective strategies flow naturally from the give-and-take of daily business engagements among all team members.

At Supremo, we focus on:

- Innovation – it is the driving force behind our long term growth.
- Quality – exceptional quality delights our customers and is essential to customer growth and retention.
- Service – at Supremo, service is not simply a concept. It's how we develop and maintain customer loyalty.
- Continuous Improvement - Our commitment is to prepare and to do our best. We consistently apply value engineering to lower the cost of products, to streamline processes, and to improve efficiencies.

I am continually impressed by the resourcefulness and entrepreneurial quality displayed by our new generation team and the exceptional value they bring to the company. This allows us to deliver added product value and outstanding customer service to clients who can count on us to carry out our promises. Our key persons regularly assess and review our clients' needs, the products we offer, and the effectiveness of the services we provide.

Our young and enthusiastic team is committed to maximizing client satisfaction through innovative and value added project delivery. We take pride in selecting the right technology and process to meet the demanding and ever changing needs of our clients. Our leadership in this industry is directly attributable to our talented staff's dedicated attention to our clients' needs and executing effective solutions to achieve success. Thus our motto and passion will remain 'Innovation is the key' and this passion remains the lifeblood of our company and continues to translate into tremendous success. Looking to the future, and our next stage of growth.

On behalf of Supremo, I invite you to explore our technological advanced new product range of Supremo and learn more about its unique features and offerings.

I am sure you will see why we love what we do.

Sincerely,

Rajeev Agrawal

FAQ's

How Supremo Steel Doors are installed and do I need to bear this cost?

These factory made doors are installed by our trained technician as per your convenient date and time given to our dealer while ordering. The fitting is an additional service given to our valued customers and is free of cost.

What is the delivery time for Supremo Steel Doors?

These are especial made doors and delivery time may vary depending up on the order size and availability of particular model. The delivery location also plays an important role in it. This can be confirmed to you at the time of booking.

How this door should be kept before fitting?

We suggest that the door should be ordered in such a way so that the installation will be done immediately without storing it somewhere. In case the delivery of door is taken before the scheduled installation it should be kept flat on raised surface and prevent any hit directly on its surface to avoid damage.

What is the right size to be kept in wall for installation of door?

Please confirm the size of wall opening from the dealer while booking the door as it may vary from model to model. Normally we recommend positive tolerance level of 20 mm in both width and height from the door frame size. Be cautious, any deviation in negative (small) size may lead to dismantling and reworking of wall.

FAQ's

How do I change the lock in future?

The lock is factory fitted in a predefined manner while making of door. It is not easy to change the lock but if you wish to change the lock for any reason in future just intimate us at the given contact numbers and our technician will do it.

Can it be customized in shape, size and fittings like extra lock etc.?

Can I paint the door?

Yes we can do customization if needed preferably for bulk orders. You can contact our dealer with your specific requirements of shape, size and additional fittings needed, if any. These are factory engineered door with state-of-the-art high quality surface finish.

Are there any chances that doors may get dented or damaged?

Though Supremo Steel Doors are made of high strength steel with special coating and printing on top of it, it may get dented or damaged if not taken care properly or using it roughly.

How a Name Plate can be fixed on it, can I do it?

Yes you can do it yourself but we recommend no drilling or puncturing on steel structure. It can be done by pasting nameplate with high bond double sided tape.
